# Correction: The importance of developing palliative care quality indicators for the prison setting: why now, and next steps

Isabelle Schaefer<sup>1</sup>, Nicole Heneka<sup>2</sup>, Michelle DiGiacomo<sup>1</sup>, Stacey Panozzo<sup>3</sup> and Jane L. Phillips<sup>1,4\*</sup>

**Correction:** *BMC Palliat Care* 22, 69 (2023)  
<https://doi.org/10.1186/s12904-023-01150-3>

Following the publication of the original article [1], it has been reported that Dr. Jane Phillips should also be affiliated to affiliation 1. Moreover, the following sentences in the Introduction section should be updated from

However, the reality of the many barriers to release near the end of life [6–8] necessitates the provision of high quality primary palliative care within prisons....

...While the basic palliative care needs of many of these people are managed internally by correctional healthcare providers, [9] providing care to those with complex or escalating palliative care needs is more challenging in the prison environment [10].

into

However, many barriers prevent this from often occurring, [6–8] necessitating the provision of high quality primary palliative care within prisons....

...While the basic palliative care needs of many of these people are managed internally by correctional healthcare

providers, [9] providing care to those with more complex or escalating palliative care needs is challenging in the prison environment [10].

The original article has been updated.
