

CURIOUS SPACES

An emerging USQ Visual Art exhibition by past & present USQ Spatial Construction Students

CURIOUS SPACES presents the concept of space as a central medium or vehicle within contemporary art. This exhibition showcases a cross section of USQ Spatial Construction students working in diverse materials united in their curiosity and exploration of space. Their individual approaches to a range of tactile and industrial materials uses space to visually engage the viewer with their personal and social stories.

OPENING

Saturday 17 April, 1pm

Opened by Dr Beata Batorowicz

Lecturer in Spatial Construction Visual Arts, USQ School of Creative Arts
