### DESCRIPTION

*Banking and Finance: In Principle* comprises a combination of key principles, tutorial-type questions and analysis in the area of Banking and Finance Law to introduce students to the fundamentals of the subject. This new title covers the following areas:

- The Australian banking system
- Contract law and bankers
- Special customers and the banker

- Bills of exchange
- Letters of credit
- Negligence
- Capacity
- Security on company borrowings
- Securities: Lending on real property
- Electronic banking and credit cards
- Consumer protection

As a concise and accessible analysis of the law relating to banking and financial institutions, this new work will be an
