Executive Summary

The Islamic market is worth more than 2 trillion dollars, encapsulated in over 1.8 billion consumers. This constitutes an enormous market where Islamic values help shape the societal structures, culture and legal norms that influence consumer preferences and behaviour.

Bringing together leading thinkers to investigate current political and socio-economic developments and their effect on the global Islamic finance market, products and services the Islamic Finance Conference will debate the likely effects of those developments on the performance and future position of Islamic financial institutions, regulatory set-ups, and the popularity of Islamic products offered to the public, governments and businesses will be addressed.

Use the event to demonstrate your prominence as an industry leader in supporting Islamic Finance.

Showcase your practical solutions that can help build increase your visibility amongst companies involved in Islamic Finance for the region.

The following pages will outline the details of the forum and how you can benefit from sponsoring and exhibiting at the event.

I look forward to discussing the forum with you in further detail.

Kind Regards,

Rajat Gehlot
