CONCRETE 2013

The Concrete Institute of Australia's Biennial National Conference (Concrete 2013) is being held at the Gold Coast Convention and Exhibition Centre, Queensland, from 16-18 October 2013.

The broad theme of the conference is "Understanding Concrete", covering materials, research, design, construction and innovation. The full technical program has now been released and a copy is provided in the following pages.

The technical program is headed by keynote speakers such as Dr Andy Davids, Prof Mario Sassone and Prof Surendah Shah, who will be backed up by some 100 other technical papers covering a wide range of interesting topics.

Chairman of the technical committee Dr Vinh Dao said: "The diversity of papers in this conference will make it attractive to civil and structural engineers, building and civil contractors and material suppliers, and there will be things of great interest to academics and researchers. Technical staff from state and local government will find topics of value for their work.

Concrete 2013 will provide a great chance to network with other likeminded professionals and exchange technical information on a more personal level."

Keynote speakers

- Dr Andy Davids, Aurecon, UAE
- Professor Mario Sassone, Department of Architecture and Design, Politecnico di Torino, Italy
- Professor Surendra Shah, Walter P. Murphy Professor of Civil Engineering (Emeritus), Centre for Advanced Cement Based Materials, Northwestern University, USA

Technical program released

Following the review of all papers the technical committee has released the technical program giving details of the papers to be presented each day. Parallel sessions will be set up so that it is easy for delegates to move between sessions to hear different presentations.

Sponsorship opportunities

There are sponsorship packages still available and Ian Bishop the sponsorship chairman says "We are open to negotiation with companies to establish a package that will suit their particular needs. Now that the full technical program is available companies can better assess the likely participation in the conference and its value to their company."

Concrete 2013 exhibitors

Active Minerals Australia	Hanson	PCTE
Ancon	Hilti	Peikko Australia Pty Ltd
Ash Development Association of Australia	HM Technologies	Penetron
Australian (Iron & Steel) Slag Association	ITW Construction Systems	Peri
BASF Australia Ltd	Krystol Group Pty Ltd	Precast Concrete Pty Ltd
BOSFA	KTI – Plersch	Sika Australia
Concrete Pipe Association of Australia	Lesa Systems	Simpson Strong Tie Australia
Erico	Maccaferri Australia	Synergy Pigments Australia
Freyssinet Australia	Мареі	The Construction Store Pty Ltd
Grace Construction Products	Normet Construction Chemicals	The Reinforced Earth Company
Halcrow (FRGC Consortium)	Parchem Construction Supplies	Хурех

CONCRETE 2013

Exhibition provides great exposure

Exhibition chairman Gavin Chadbourn indicated that the exhibition spaces are filling up quickly and that he "feels that now the technical program has been finalised, the remaining spaces will be much sought after. Currently we have allocated 49 exhibitions spaces, which, makes this a great contributor to the value of the conference."

Companies committed to providing exhibitions as at the date of this article preparation are listed in the following pages.

Exhibitors have the opportunity to invite clients from the local region who are not able to attend the conference to visit and inspect their display during the conference period.

Social program

Concrete 2013 has a welcome function on the Wednesday evening and the gala dinner on the Thursday evening, both of which will be held in the conference venue. These are covered for the delegate by the delegate registration fee, but other members of staff and family can be registered for an additional fee for those events.

As well as these events there are other opportunities for delegates and families during the conference and on the following weekend.

Social chairman Con Komselis said: "The Gold Coast has wonderful attractions for delegates and their families, and we have been able to secure special entry fee discounts for the major entertainment parks in the region and also for those who love to play golf. These rates will apply to the weekend after the conference, so it is a great chance for delegates to include their family in this trip."

Awards for Excellence in Concrete presentations

If your company or organisation has involvement in any of the projects submitted for the Concrete Institute's Awards for Excellence in Concrete then you will be interested in the gala dinner that will be held at the conference. This will include the presentation of the national awards to the projects judged the best in their category. Companies involved should also consider purchasing tables for the dinner to enable them to bring staff involved and particular clients to see the value of the work done in the award project. This can be done by contacting Arinex as listed below.

Accommodation

The Gold Coast has a wide range of accommodation available from family units to hotel suites. The conference has organised special rates for delegates at locations within a few minutes walk of the conference venue and these are available through the registration area of the conference website.

Support your industry conference

Conference chairman Emeritus Professor Peter Dux urges all CIA members to support their organisations major biennial event. He said: "Concrete 2013 is the flagship for the CIA and provides a major national focus for the dissemination of technical information on all aspect of concrete. It affords wonderful opportunities for networking nationally and internationally that are not available in any other forum on concrete in Australia. It is a major event and a vitally important event for the CIA, and I urge all members to get behind it, support it and attend to ensure that is continues to occupy its rightful position as the pre-eminent event on concrete in Australia." Further conference details and registration information can be found on www.concrete2013.com.au. Conference Managers: Arinex Pty Limited Suite 3, The Precinct, 12 Browning Street West End, QLD 4101 Ph: +61 7 3226 2800 Fax: +61 7 3226 2899 Email: concrete2013@arinex.com.au Website: www.concrete2013.com.au

Closing Ceremony (with Afternoon Tea and Exhibition)

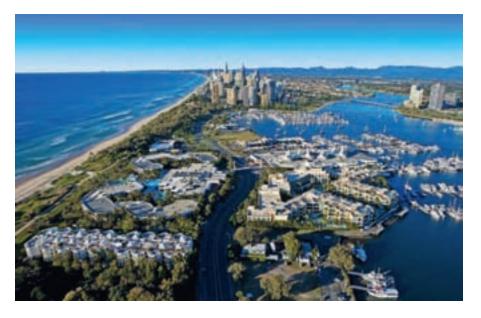

Delegate registration is still open

Registration for Concrete 2013 is now open and can be made via the conference website www.concrete2013. com.au.

There are many categories of registration and there are discounts available to all levels of CIA membership, as well as reduced fee options available to academics, retired professionals and students. Special rates are also available for young industry professionals (under 30 years of age). Day registration is also available for delegates who are unable to attend the whole conference but who have a particular interest in certain papers or keynote speakers.

Exhibitors will also have the opportunity to invite clients from the local region who are not able to attend the conference to visit and inspect their display during the conference period. Additional exhibition visitor

passes can be purchased by emailing concrete2013@arinex.com.au.
