## WELCOME MESSAGE FROM PROGRAM CO-CHAIRS

On behalf of the Program Committee, we welcome you all to the first IEEE International Conference on Intelligent Processing Systems and welcome you all to Beijing, one of the most charming cities in the world for her thousands years of history, and in 1997 for the return of Hong Kong to China.

We are honored to serve as the Program Co-Chairs for this conference. This is the first time IEEE holds a conference with a single focus on intelligent systems that are actually used in the real world. We and all the Program Committee members are firmly confident that the conference will have impressive impact on the development and application in the area of intelligent processing systems.

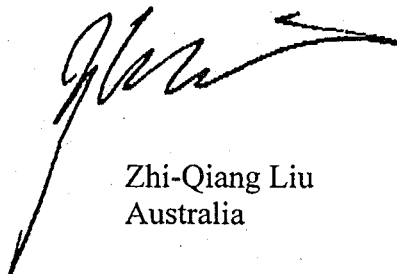

The program contains both contributed and invited sessions. In addition, three plenary speakers have been invited to deliver key talks with balanced topics on the central theme of this conference: Evolutionary Intelligent Systems. The program is also nicely complemented by two tutorials given by world leading experts in the area of evolutionary systems.

In response to our call for papers, over 700 contributions were submitted, of which 400 were accepted. Each contribution was reviewed by three referees. The members of Program Committee and numerous reviewers have done a superb job and made valuable comments to improve the quality of the conference.

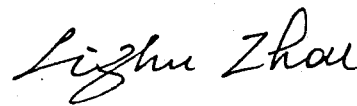

We would like to take this opportunity to thank IEEE Industrial Electronics Society for sponsoring this conference. In addition we would like to thank the General Co-Chairs, Richard Zurawski and Zengqi Sun for an excellent work in leading the activities related to the conference organization. Thanks also to many people who have been involved in the organizational works of the conference. Their effort is essential in making ICIPS'97 a conference at international level.

Finally the diversity and the high quality of the technical program have been made possible by you for your excellent contributions that we are sure will make this first conference a great success.

We are looking forward to seeing you in Beijing and trust that you will have many good memories of this conference and this beautiful city.
