

Call for Papers

23rd Australasian Conference on Information Systems

The Australasian Conference on Information Systems (ACIS) is the premier conference in Australasia for Information Systems academics and professionals, covering technical, organisational, business, and social issues in the application of Information Technology. Its status has been recognized as an ERA-ranked A-conference. In 2012, the ACIS Conference will be hosted by the School of Information Systems at Deakin University. The event will take place at our Geelong Waterfront Campus from 3-5 December 2012. The Campus is located one hour's drive from Melbourne, within walking distance of Geelong's rail station and is serviced by Avalon Airport or by bus direct from Tullamarine Airport. The region is well known for such attractions as surfing at Bells Beach, the Great Ocean Road, the Bellerine Wine district, many golf courses and fine food.

Conference Theme

“Location, location, location”

The conference theme for 2012 focuses on three aspects of “location” in Information Systems. The first aspect relates to the location of Information Systems as a discipline. Information systems seems to be taught everywhere. What we consider to be information systems is being taught in many disciplines. Electronic business and marketing is moving into commerce schools. Education schools teach the use of information systems in education; Health informatics in health schools; Digital journalism and digital video in arts schools. Where is information systems as a discipline? Does it have a long term future?

The second aspect of location relates to the visibility of the discipline. Information systems is becoming invisible. Information systems are embedded into smart phones and media players, into databases as analytics, technology diffusion has become a theme, social networking is everywhere. Most media these days is digital and corporate media players are repositioning themselves to take advantage of iPads, Kindles and the like. If information systems ceases to be visible, how do we attract people into it as a discipline?

The third aspect of location focuses on the ubiquity of Information Systems. Information systems seem to be everywhere. We glibly talk about the information age, information systems supporting international commerce and being in every country. The Arab uprisings in 2011 were hailed as being facilitated by social networking. But just how widespread and evenly spread are information systems deployed? Are information systems and the traffic on them flowing freely and accessibly in all countries? Are information systems evenly deployed around the planet? What issues are there in facilitating this?

Conference Tracks

The conference will be organised into the following Tracks and we encourage submissions that focus on one of these areas:

- Perspectives on the Future of the IS Discipline
- Enterprise 2.0 and Social Media and Networking in Organisations
- Ontological and Philosophical Aspects of Information Systems
- Enterprise Systems, Enterprise Content and the Extended Enterprise
- Business Analytics
- IS Education
- Knowledge Management and IS
- Broadband, Ubiquitous and Location-aware Information Systems
- Information Security and Privacy
- Information Systems Management, Strategy and Competitive Advantage
- Green IS and Sustainability
- The Diverse Landscape of IS Development

Submission Types & Format

We seek to engage the Australasian IS academic community by encouraging the following submissions:

- Research Papers
- Research-In-Progress Papers
- Teaching Cases
- Education Papers
- Position Papers
- Practitioner Reports

ACIS 2012 calls for original, unpublished submissions in English and these must be made via the ACIS 2012 submission system on the conference website at www.acis2012.deakin.edu.au which also has information on paper submission format and the review processes. **All papers will be initially checked and those that fail to comply with the submission format will be automatically rejected.** All submissions that are compliant will then undergo a double-blind peer review process.

Important Dates

Paper submission deadline: 25th July 2012
Notification of paper acceptance: 19th September 2012
ACIS Doctoral Consortium: 1st & 2nd December 2012
ACIS Conference: 3rd – 5th December 2012

Organisation

Program Co-Chair
Prof. Rens Scheepers

Program Co-Chair
Prof Pat Finnegan

Organising Chair
Dr John Lamp

Doctoral Consortium Chair
Prof. Cathy Urquhart

Conference Organiser
Ms Jodi Morgan

Email: acis2012@deakin.edu.au

Sunday 2nd December

6:30-8:30pm Welcome Reception, Staff Lounge on Deakin University Waterfront Campus

Monday 3rd December

9 - 9:30am **Opening ceremony**

9:30-10:30am **Keynote: How IS is changing the way our health services are managed**

Ann Larkins, Barwon Health, Percy Baxter Theatre

10:30-11am Morning Tea

D2.194

D2.193

D4.106

AD6.104

D2.211

D2.212

Track	Information Systems Education	Information Systems Management, Strategy and Competitive Advantage	Business Analytics	Enterprise 2.0, Social Media and Social Networking in Organisations	Ontological and Philosophical Perspectives on IS	Knowledge Management and IS
Session Chair	Craig McDonald	Saiqa Aleem	Rens Scheepers	Kai Riemer	Deborah Bunker	Helen Hasan
11-11:30am	Identifying the Determinants of E-learning Service Delivery Quality , Ahmed Alsabawy, Aileen Cater-Steel, Jeffrey Soar	The impact of ITIL (information technology infrastructure library) recommended practices on the IT outsourcing relationship , Mohammed Alojail, Anne Rouse, Brian Corbitt	Assessing data quality issues in the Emergency Department through data and process mapping , Jing Gao, Andy Koronios	A Model for Enhancing Empowerment in Farmers using Mobile Based Information System , Tamara Ginige, Deborah Richards	Visualizing the Core-Periphery Distinction in Theory Domains , Dirk Scott Hovorka, James Birt, Kai Larsen, Gavin Finney	Multiple Perspectives Framework to Model Complex Processes , Choon Bae Yoo, Igor Hawryszkiewicz, Kyeong-Soon Kang
11:30-12noon	Feeding Back and Enhancing Authentic Learning in Quality Course Assessment Design: Locating Information Systems in Rigorous Educational Research , Abdul Hafeez-Baig, Gururajan Raj, Jones David, P. A. Danaher	Health Information Technology Governance: A Perspective on Investment Decision Processes , Eman AbuKhoua, Nabeel Al-Qirim	Analysing business processes to manage and resolve strategic issues in a manufacturing business , Sittimont Kanjanabootra, Brian Corbitt, Miles Nicholls	Supporting Emotion Communication in Information Systems , Matthew Willis, Christian Jones	Eureka Moments In Research: Exploring Abductive Processes Using Four Case Examples , Philip Dobson, Richard Fulford, Llandis Barratt-Pugh, Sue Bahn, Denise Gengatharen, Ann-Claire Larsen	How Organisations Know What They Know: A Survey of Knowledge Identification Methods among Australian Organisations , William Newk-Fon Hey Tow, John Venable, Peter Dell
12-12:30pm	A Design Pattern for Responsible Information Systems Education , Craig McDonald	IT Governance Framework For E-Government , Saiqa Aleem, Nabeel Al-Qirim	The Impact of Strategy on Business Analytics Success , Nargiza Bekmamedova, Graeme Shanks	Regional Integration 2.0: Facilitating Regional Integration and Development with Collaborative Technologies , Acklesh Prasad, Glen Finau, Jale Samuwai	Locating Frames of Reference for Information Systems: A Position Paper , Rhys McIlwaine, Jocelyn Cranefield, Gillian Oliver	The Effects of Website Quality on Adoption of E-Government Service: An Empirical Study Applying UTAUT Model Using SEM , Mohammed Alshehri, Steve Drew, Thamer Alhussain
12:30-1:30pm	Lunch					

Monday 3rd December

	D2.194	D2.193	D4.106	AD6.104	D2.211	D2.212
Track	Information Systems Education	Information Systems Management, Strategy and Competitive Advantage	Business Analytics	Enterprise 2.0, Social Media and Social Networking in Organisations	Ontological and Philosophical Perspectives on IS / Future of the IS Discipline	Knowledge Management and IS
Session Chair	Annemieke Craig	Sophia Duan	Brian Corbitt	Zhaohao Sun	Meng Zhang	Hans Muller
1:30-2pm	A Theory of Change Framework for Developing Cross-Faculty Programs: An Information Systems Perspective , Deborah Richards, Mauricio Marrone	A model to select processes for IT service management improvement , Anup Shrestha, Aileen Cater-Steel, Mark Toleman, Wui-Gee Tan	Towards a Business Analytics Capability Maturity Model , Ranko Cosic, Graeme Shanks, Sean Maynard	Understanding the Role of Social Media Monitoring in Generating External Intelligence , Maral Mayeh, Rens Scheepers, Michael Valos	The Relevance of Perspectivism to the Task of Modularisation in Ontology Development , Emily Keen, Chris Keen, Simon Milton	Global Positioning Systems in the AFL: Worthwhile or Waste of Time? Kelly Foreman, Gave Deegan, Grant Wigley
2-2:30pm	Adoption Vs. Usage of Interactive White Board Technology By Teachers in Higher Education Institutions , Nabeel Al-Qirim	Exploring the Current Status of Call Centre Offshoring Research: A Research Agenda and Future Directions , Jongkil Jeong, Sherah Kurnia, Nargiza Bekmamedova	Becoming An Analytics-Based Organisation: Strategic Agency In The Change Process In A Retail Organisation , Petri Hallikainen, Olivera Marjanovic, Hilka Merisalo-Rantanen, Antti Syvaniemi	Crowdsourcing Motivations in a not-for-profit GLAM context: The Australian Newspapers Digitisation Program , Sultana Lubna Alam, John Campbell	Identity and Self-Presentation: from a Representational to a Performative Lens in Studying Social Media Engagement in Organisations , Jo Orsatti, Kai Riemer	Potentials of social media for tacit knowledge sharing among clinicians: Preliminary findings , Siros Panahi, Jason Wastson, Helen Partridge
2:30-3pm	Student Attention, Engagement and Participation in a Twitter-friendly Classroom , Mustafa Ally	What Drives the Adoption of Electronic Markets in Australian Small-and-Medium Sized Enterprises? – An Empirical Study , Xiaoxia Duan, Hepu Deng, Brian Corbitt	Understanding Data Quality Issues in Dynamic Organisational Environments: A Literature Review , Sarah Anstiss, Olivera Marjanovic	Twitter Tsunami Early Warning Network: A Social Network Analysis of Twitter Information Flows , Akemi Takeoka Chatfield, Uuf Brajawidagda	State of Multilevel Research Perspective in the Information Systems Discipline , Meng Zhang, Wasana Bandara	A Similarity Measure on Tree Structured Business Data , Dianshuang Wu, Guangquan Zhang, Jie Lu, Wolfgang A. Halang
3-3:30pm	Afternoon Tea					

Monday 3rd December

	D2.194	D2.193	D4.106	AD6.104	D2.211	D2.212
Track	Information Systems Education	Information Systems Management, Strategy and Competitive Advantage	Business Analytics	Enterprise 2.0, Social Media and Social Networking in Organisations	Perspectives on the Future of the IS Discipline	Knowledge Management and IS
Session Chair	Don Kerr	Georg Peters	Dale MacKrell	Jenine Beekhuyzen	Jennie Carroll	Henry Linger
3:30-4pm	Information Technology Competencies for Malaysian Accountants : An Academic's Perspective , Ku Maisurah Ku Bahador, Abrar Haider	Transfer of electronic commerce trust between brick-and-mortar and online business environments , Stephen C. Wingreen, Stephen L. Baglione, Gordon R. Storholm	Supporting Personalised Content Management in Smart Health Information Portals , Daswin De Silva, Frada Burstein, Julie Fisher	Wikis: Transactive Memory Systems in Digital Form , Paul Jackson	IS Discipline in the IT Services Land: An Exploratory Study of IS in India , Jyoti M. Bhat, Bhavya P. Shroff, Rajendra K. Bandi	Towards A Semantic Quality Based Approach for Business Process Models Improvement , Sarah Ayad, Samira Si-said Cherfi, Isabelle Comyn-Wattiau
4-4:30pm	In what ways does policy on academic integrity, copyright and privacy need to respond in order to accommodate assessment with Web 2.0 tools? , Joan Richardson, Margaret Hamilton, Kathleen Gray, Jenny Waycott, Celia Thompson	A Critical Evaluation and Comparison of Two Formative Measures of System Quality Using Criterion Variables , Azim Ali, Mary Tate, Ahmad Rabaa'i	Estimating Non-Response Bias in a Web-based Survey of Technology Acceptance: A Case Study of Unit Guide Information Systems , Amara Atif, Deborah Richards, Ayse Bilgin	Integrating Online Social Networks with E-Commerce: A CBR Approach , Zhaohao Sun , Sally Firmin, John Yearwood	Looking Back to Tomorrow: Research, Teaching and Practice in IS , Jim Underwood	The Relationship between Knowledge Management Strategic Orientation and Business Strategic Orientation among SMEs , Naief Azyabi, Julie Fisher, Kerry Tanner, Shijia Gao
4:30-5pm	Impact of Personalized Recommendation and Social Comparison on Learning Behaviours and Outcomes , Thien Wan Au, Shazia Sadiq	Current Trends in Product Lifecycle Management , Adan Staisch, Georg Peters, Thomas Stueckl , Jan Seruga	Making Sense of Business Intelligence: Proposing a Socio-Technical Framework for Improved Decision Making in Not-for-Profit Organisations , Dale MacKrell, Martijn Van Den Boogaard	The High Seas (C's) of Piracy in Information Systems: Cost, convenience and choice , Jenine Beekhuyzen, Sue Nielsen, Liisa von Hellens	'Re-composing the Elephant': Bringing the Big Picture back into IS Research , Jennie Carroll, Justin Fidock	A Framework for Inter-organizational Knowledge Sharing: Managerial Influences , Rosemary Van Der Meer, Luba Torlina, Jamie Mustard
5-6:30pm	Pre-dinner Networking Event, sponsored by ACS-W, Max Hotel Wine Bar					

Tuesday 4th December

9:30-10:30am	Keynote: Academics and practitioners, an essential partnership in the 21st Century <i>Lars Mathiassen, Georgia State University, Percy Baxter Theatre</i>					
10:30-11am	Morning Tea					
	D2.194	D2.193	D4.106	AD6.104	D2.211	D2.212
Track	Information Systems Education	Information Systems Management, Strategy and Competitive Advantage	Business Analytics / Information Security and Privacy	Enterprise 2.0, Social Media and Social Networking in Organisations	The Diverse Landscape of IS Development	Knowledge Management and IS
Session Chair	John Venable	Sean Van Deventer	Sittimont Kanjanabootra	Rosemary Stockdale	Adam Hart	Suzanne Zyngier
11-11:30am	Industry and University Perspectives of Work Integrated Learning Programs in ICT Degrees , Chris Pilgrim	Qualitative investigation of digital divide in Indonesia : toward a comprehensive framework , Arief Rahman, Mohammed Quaddus	Data Warehouse Design and Legal Visualization : The Applicability of H2 for Reporting , Joerg Becker, Mathias Eggert, Stefan Fleischer, Marcel Heddier, Ralf Knackstedt	Understanding user participation in Australian Government Tourism Facebook Page , Sultana Lubna Alam, Aodah Diamah	Information Systems Development Projects as Complex Adaptive Systems , Karlheinz Kautz	Patient and Business Rules Extraction and Formalisation Using SVN and SBVR for Automated Healthcare , Davor Meersman, Pieter De Leenheer, Fedja Hadzic
11:30-12noon	Predicting the Acceptance of Unit Guide Information Systems , Amara Atif, Deborah Richards, Ayse Bilgin	Power Relations in IS Projects : A Critical Review and a New Research Agenda , Yaqian Ye, Peter Marshall, Judy McKay	Who is more susceptible to phishing emails?: A Saudi Arabian study , Ibrahim Alseadoon, Taizan Chan, Ernest Foo, Juan Gonzalez Nieto	Social Media in Disaster Response: Queensland Police Service - Public Enqagement During the 2011 Floods , Christian Ehnis, Deborah Bunker	A Taxonomy of Dependencies in Agile Software Development , Diane E. Strode, Sid L. Huff	Exploring the Global and Local Networks of National Information System Integration Initiatives: A Case Study of National Cultural Collection Integration from an Actor-Network Perspective , Morgan Strong, Nick Letch
12-12:30pm	The Use of Laptop Computers in Programming Lectures , Wafaa Alsaggaf, Margaret Hamilton, James Harland, Daryl D'Souza, Mikko-Jussi Laakso	The impact of switching costs on the decision to retain or replace IT outsourcing vendors , Sean Van Deventer, Harminder Singh	Active data-centric framework for data protection in cloud environment , Lingfeng Chen, Doan Hoang	Adoption of Social Media in Victorian Local Governments , K. Omar, Helana Scheepers, Rosemary Stockdale	Power and discourse in information systems practice: a narrative research method , Adam Hart, Jim Underwood	Enterprise Social Networking in Knowledge-intensive Work Practices: A Case Study in a Professional Service Firm , Kai Riemer, Paul Scifleet
12:30-1:30pm	Lunch (ACPHIS AGM D2.193)					

Tuesday 4th December

	D2.194	D2.193	D4.106	D4.109	D2.211	D2.212
Track	Information Systems Education	Information Systems Management, Strategy and Competitive Advantage	Enterprise Systems, Enterprise Content and the Extended Enterprise / Green IS and Sustainability	Broadband, Ubiquitous and Location-aware Information Systems	The Diverse Landscape of IS Development	Knowledge Management and IS
Session Chair	Ashley Aitken	Dennis Viehland	Kelly Foreman	Vanessa Chang	Mark Freeman	Sarah Sabbaghan
1:30-2pm	The Tale of Two Cultures: Differences in Technology Acceptance in Twitter Usage , Nauman Saeed, Suku Sinnappan, Stefanie Markham	Information Quality Assessment in Korean manufacturing Organization , Sang Hyun Lee, Abrar Haider, Jeong Goo Kim, Ku Maisurah Ku Bahador	What Drives the End User to Build a Feral Information System? , Anthony Spierings, Don Kerr, Luke Houghton	The moderating influence of device characteristics and usage on user acceptance of Smart Mobile Devices , Mustafa Ally, Michael Gardiner	IT Consultants' Voluntary Contract Termination - A Psychological Contract Perspective , Gro Bjerknes, Karlheinz Kautz	Patent Management and Social Software , Denise Vanderweijer, Alexander Richter, Michael Koch, Kai Riemer
2-2:30pm	Concepts and Factors Influencing Independent Learning in IS Higher Education , Rohini Balapumi, Ashley Aitken	Motivation-based IS Evaluation Strategy: A Perspective of Marketing Information Systems , Hafizul Islam, Shah J Miah	Exploring the Use of Enterprise Content Management Systems in different types of Organisations , Noreen Izza Arshad, Rachele Bosua, Milton Simon	Individually tailored client-focused reports for ubiquitous devices: An experimental analysis , Stephen P. Smith, Reeva Lederman, Paul Monagle, Basil Alzoughool, Lee Naish, Suelette Dreyfus	The View from the Trenches: Satisfaction with eHealth systems by a group of health professionals , Leigh Ellen Potter, Cole Purdie, Sue Nielsen	KM Value Creation: Evidence from a case , Nelly Todorova, Ulrich Remus, Paul Cragg
2:30-3pm	Creating Value in an Introductory Business IS and IT Unit , Ashley Aitken, Gillian Hatt	Banking on ICT: How the Tuvalu Financial Services Industry Benefits from Investment in ICT , Taufia Patolo, Dennis Viehland	A Comprehensive IS-Enabled Framework and IS Research Agenda to Improve Contributions to Environmental Sustainability by Universities , John Lavarack, Steve Elliot	Community Perception of Mobile Payment in e-Government Services , Atiqul Ahsan, Vanessa Chang, Tomayess Issa	Interplaying User Roles in E-Government Design: A Participatory Good Governance Perspective , Shah J Miah, Wahed Uzzaman	
3-3:30pm	Afternoon Tea					

Tuesday 4th December

	D2.194	D2.193	D4.106	D4.109	D2.211	D2.212
Session	IS Education / Information Systems Management, Strategy and Competitive Advantage	Panel 1	Green IS and Sustainability	Panel 2	Workshop 1	Panel 3
Session Chair	Nelly Todorova		Ming Hock Yew			
3:30-4pm	A Preliminary Evaluation of the Use of Graphic Novels in Teaching Information Systems , Ashley Aitken, Gillian Hatt	3 or 4 Shades of Grey – Distinguishing the IS Curriculum - Dr Rod Jarman, A/P Aileen Cater-Steel, Michael Billimoria, Simon Roller & Peter Cross. This panel brings together experts from industry and academia with complementary perspectives to highlight an issue of importance to the IS field, the changing IT paradigm from “development” to “service” and its impact on IS curriculum design. Schools of Information Systems have had trouble differentiating themselves from Computer Science schools, and this a global issue. It is common that Faculty Deans and Vice-Chancellors are never quite sure what IS teaches and how it is different from other “computer” courses. For University executives this computer “stuff” is a grey area.	Towards using ICT to Enhance Flow of Information to aid Farmer Sustainability in Sri Lanka , Lasanthi De Silva, Jeevani Goonetillake, Gihan Wikramanayake, Athula Ginige	DBA or PhD: An Emerging Market for IS? Lars Mathiassen, Ronel Erwee, Chris Felsted, Tanya Castleman This panel will explore the future for qualifications other than the Ph.D. in Information Systems and related disciplines. Doctoral degrees that combine coursework and these components (such as the Doctor of Business Administration) seem to represent a potential growth area, at least internationally. The experience from countries such as the USA and Germany, where such qualifications are valued in industry, represent a pathway for advanced study beyond the traditional academic research career. The panel will explore these options from a number of perspectives, representing North American, European and Australian experiences on these issues.	Using NVivo for a literature review - Jenine Beekhuyzen. Using NVivo for literature reviews has several advantages. One significant advantage is the ability to store everything in one place. Often you have information in many places, like hard copy journal articles, post-it notes, digital versions of journal articles, and EndNote/Zotero/Mendeley libraries, word documents, spreadsheets etc. NVivo lets you store all of this information in one database – which is a big time saver. Other advantages include coding literature alongside research data, and everyone has to do a literature review, regardless of if their empirical work is quantitative or qualitative. This workshop will provide practical tips and hints on how to make the most of the software for managing your literature review.	The Past, Present and Future of Knowledge Management (KM) in Australia - Helen Hasan, Prof Frada Burstein, Helen Palmer, Dr Arthur Shelley, Dr Suzanne Zyngier The field of KM emerged in the mid 1990s. As with most topics in IS, KM overlaps with disciplines outside IS and there is also a long standing practitioner community. The annual Australian Conference for Knowledge Management and Intelligent Decision Support ran until 2009, then became an ACIS track. The practitioner oriented conferences, ActKM and KMAustralia, are successful but attract few academics. In this panel, past and present KM folk give their view of where we have been and how we can strengthen ties between the various KM and IS communities for the advancement of an integrated approach to KM into the future.
4-4:30pm	A Typology for Business Transformations , Norizan Safrudin, Jan Recker		Implementing Green Business Processes: The Importance of Functional Affordances of Information Systems , Stefan Seidel, Jan Recker			
4:30-5pm			Framework for a Residential Energy Information System (REMIS) to Promote Energy Efficient Behaviour in Residential Energy End Users , Ming Hock Yew, Alemayehu Molla			
	AAIS AGM D2.193					
7-11pm	Conference Dinner (Drinks at the Pier from 6:30pm)					

Wednesday 5th December

	D2.194	D2.193	D4.106	AD6.104	D2.211	D2.212
Track	Information Systems Management, Strategy and Competitive Advantage	Enterprise Systems, Enterprise Content and the Extended Enterprise	Workshop 3	The Diverse Landscape of IS Development	Workshop 2	Panel 4
Session Chair	Michelle Ye	Jacob Cybulski		Diane Strode		
9-9:30am	Change Implementers' Resistance: Considering Power and Resistance in IT Implementation Projects , Judy McKay, Peter Marshall, Nick Grainger, Rudy Hirschheim	Enterprise Systems for Innovation in Products and Processes: Beyond Operational Efficiency , Prithvi Jyoti Bhattacharya, Peter B Seddon, Rens Scheepers	Designing and Conducting Design Science Research - <i>John Venable</i> . The purpose of this tutorial is to sort through controversies in DSR and to provide practical advice on how to design and conduct research within the DSR paradigm. Participating attendees should gain a firm understanding of the basics of DSR, how it relates to other research paradigms, alternative perspectives, specific techniques to use in their own DSR projects and practical beginnings in applying those techniques to conducting their own DSR projects. Participants are encouraged to come with a real or planned DSR project in mind (but preferably at a formative or early stage), to which techniques will be applied during the tutorial as exercises. Small groups of participants are also encouraged.	Global Software Development: Measuring, Approximating and Reducing the Complexity of Global Software Development Using Extended Axiomatic Design Theory , Hadi Kandjani, Peter Bernus, Lian Wen	What really is "PLS" (and why do I need to know this)? - <i>Anne Rouse</i> . When establishing the reliability and validity of constructs used in research, the discipline of information systems is unusual in its widespread reliance on a relatively obscure statistical tool developed originally in chemistry: Partial Least Squares Regression (PLS). This tutorial will examine the differences between PLS and the mainstream alternatives, and discuss when PLS is, and is not, the best tool to use to analyse a quantitative survey. The tutorial will also review the key issues that researchers need to consider when establishing the measurement model properties of the constructs used in a research project. Establishing these properties is an essential first step in any quantitative, theory-testing study.	Perspectives on the Future of the IS Discipline - <i>Dubravka Cezec-Kecmanovic, Robert Johnson, Roger Clarke, Séamas Kelly & Kai Riemer</i> . The Panel on the same topic as the conference track is proposed to foster a debate about the future of the Information Systems (IS) discipline as a field of enquiry and a field of practice. The aim of this panel is therefore to draw attention to the topic of the future of IS and to attract and motivate IS researchers to engage in the debate. The participants of this Panel are taking different perspectives and angles of observation to explore the past and envisage the future of the IS discipline. We do this with awareness that by engaging in the debate we not only 'envisage' the future of our discipline but also take part in its creation.
9:30-10am	Strategic planning to build Transformational Preparedness: An Application of Enterprise Architecture Practice , Nilesh Vaniya, Peter Bernus	Individuals' Absorptive Capacity in Enterprise System Assimilation , Pouria Khosravi, Azadeh Rezvani, Mohammad Nazir Ahmad		Methods of usability evaluations of mobile devices , Fayez Alshehri, Mark Freeman		
10-10:30am	Enabling Innovation in Information Technology Outsourcing: An Empirical Study , Bouchaib Bahli	Business Process Affordances through the Lens of Activity Theory , Edyta Rozycki, Susan Keller, Jacob Cybulski		ICT Alternative for Primary Care Delivery in Indonesia: A Proposal , Richard Husada, Lemai Nguyen		
10:30-11am	Morning Tea					

Wednesday 5th December

	D2.194	D2.193	D4.106	AD6.104	D2.211	D2.212
Track	Information Systems Management, Strategy and Competitive Advantage	Enterprise Systems, Enterprise Content and the Extended Enterprise	Workshop 3	The Diverse Landscape of IS Development	Workshop 2	Green IS and Sustainability
Session Chair	Sharman Lichtenstein	Stephen Smith		Behrang Assemi		Craig Parker
11-11:30am	Feral Practices , Shubhankar Thatte, Nick Grainger, Judy McKay	How Does Contingent Reward Affect Enterprise Resource Planning Continuance Intention? The Role of Contingent Reward Transactional Leadership , Azadeh Rezvani, Pouria Khosravi, Mohammad Nazir Ahmad	Designing and Conducting Design Science Research. <i>Continued.</i>	Preliminary Insights from a Multiple Case Study on Process Modelling Impact , Eike Bernhard, Jan Recker	What really is “PLS” (and why do I need to know this)? <i>Continued.</i>	ICT to Enhance The Triangle of Life: A Case Study , Rehan Syed, Wasana Bandara
11:30-12noon	A Network Analysis of IT Governance Practices: A Case Study of an IT Centralisation Project , Hafizah Mohamad Hsbollah, Alan Simon, Nicholas Letch	Co-evolution Path Model: How Enterprises as Complex Systems Survive on the Edge of Chaos , Hadi Kandjani, Peter Bernus, Sue Nielsen		Profile Information and Business Outcomes of Providers in Electronic Service Marketplaces: An Empirical Investigation , Behrang Assemi, Daniel Schlagwein		Internal organizational factors influencing sustainable implementation of information systems: Experiences from a local government in Indonesia , N. Nurdin, Rosemary Stockdale, Helana Scheepers
12-12:30pm	Towards a Better Understanding of How Effective IT Governance Leads to Business Value: A Literature Review and Future Research Directions , Poorang Haghjoo	Aligning Global Business Information with ERP Systems for Improved Performance , Manjula Rajapaksha, Mohini Singh, Ziyad Pita				Applying King et al.'s taxonomy to frame the IS discipline's engagement in green IS discourse , Craig Parker, Rens Scheepers
12:30-12:45pm	Closing Remarks - John Lamp & Rens Scheepers, D2.193					
12:45-1:30pm	Lunch (ACIS Rolling Committee Meeting, D2.193)					
1:30-5pm			Designing and Conducting Design Science Research. <i>Continued.</i>			

= nominated for an award
