

**UNESCO International Centre
for
Engineering Education (UICEE)**

**GLOBAL CONGRESS
ON
ENGINEERING EDUCATION**

incorporating:

5th World Conference on Engineering Education

4th East-West Congress on Engineering Education

1998 International Congress of Engineering Deans and Industry Leaders

UNIVERSITY OF MINING & METALLURGY

Cracow, Poland

6-11 SEPTEMBER 1998

CONGRESS PROCEEDINGS

edited by

ZENON J. PUDLOWSKI

Application of new technologies in engineering and technology education and industrial training	235
<i>Computer-aided education in electrical engineering</i> , J.D. Zakis & Z.J. Pudlowski, Monash University, Melbourne, Australia (Lead Paper)	237
<i>A quick way to develop teaching Intranets</i> , Z. Turk, University of Ljubljana, Ljubljana, Slovenia	242
<i>The concept of distance learning in engineering based on the application of hypermedia and expertmedia</i> , S.A. Kovalev, V.I. Ignatov & E.Y. Stetsenko, Donetsk State Technical University, Donetsk, Ukraine	247
<i>Cost effective and innovative approaches to providing practical experiences in engineering programmes</i> , R.M. Morrison & R.M.A. Mariasingam, National University of Science and Technology, Bulawayo, Zimbabwe	250
<i>Virtual reality problems in the engineering education of seafarers</i> , R. Cwilewicz & J. Mindykowski, Gdynia Maritime Academy, Gdynia, Poland	253
<i>Systematic development of interactive multimedia courseware relating to the rational use of energy in industry and buildings</i> , M.M. Keane & J.F. Hurley, National University of Ireland, Cork, Ireland (Lead Paper)	257
Flexible delivery: an Australian perspective , M.J. Morgan, University of Southern Queensland, Toowoomba, Australia	262
<i>Importance of industrial training and new technologies in engineering education</i> , D.A. Pandu & S.C. Sharma, Rashtrreeya Sikshana Samithi Trust, Bangalore, India	267
<i>Active virtual laboratory on the Internet as an effective tool for learning</i> , M.V. Kazitov & V.V. Nelayev, Belorussian State University of Informatics and Radioelectronics, Minsk, Belarus	269
<i>Introducing freshmen students to hands-on experience in engineering design</i> , E. Inelmen, Bogazici University, Istanbul, Turkey	273
<i>Higher-level causal reasoning for diagnosing students' misconceptions in learning semiconductor physics</i> , N. Ahmed†, M.M. Khan‡ & R.H. Tariq*, University of Brunei Darussalam, Bandar Seri Begawan†; Jefri Bolkihah College of Engineering, Kuala Belait‡; Maktab Teknik Sultan Saiful Rijal, Jalan Muara*, Brunei Darussalam (Lead Paper)	277
<i>How to teach computers for electrical engineering purposes</i> , K. Stec, Silesian Technical University, Gliwice, Poland	280
<i>The selection of a hypermedia-assisted instruction delivery system based upon structured teaching material and efficient curriculum design</i> , S. Tao & Z.J. Pudlowski, Monash University, Melbourne, Australia	282
<i>Learning database software engineering from within virtual environments</i> , V.P. Wade, J.B. Grimson & C. Power, Trinity College Dublin, Dublin, Ireland	287
<i>Electronics engineering education and the Internet</i> , A.M. Ibrahim, DeVry Institute of Technology, Toronto, Ontario, Canada	292
<i>Chemical engineering on WWW: an effort to increase the learning outcomes</i> , M. Larsson, J. Edvardsson, B. Westerberg, S. Irandoust & C. Niklasson, Chalmers University of Technology, Goteborg, Sweden (Lead Paper)	294
<i>Multi-user expert systems in electro-diagnostics</i> , K. Zalis, Czech Technical University (CTU) in Prague, Prague, Czech Republic	298
<i>Miniaturised Plants and Machinery Academies of Engineering (MPMAE)</i> , C.N. Anyakwo, Federal University of Technology, Owerri, Nigeria	303
<i>Computer-Aided Instruction (CAI) in engineering education: a case study in chemical engineering</i> , A.R. Prasad & K.V. Rao, Andhra University, Visakhapatnam, India	306
Current issues and trends in engineering education and industrial training	311
<i>Recent developments in vocational education and training in Australia</i> , R. Seidel, Regency Institute of TAFE, Adelaide, Australia (Lead Paper)	313
<i>The demons in physics</i> , Z. Szklarski, University of Mining and Metallurgy, Cracow, Poland	318
<i>Modernisation of the educational system in the Faculty of Electrical Engineering at the Technical University of Szczecin</i> , M. Gramz & K. Penkala, Technical University of Szczecin, Szczecin, Poland	322
<i>A new model for the development of professional engineers by part-time study at a distance</i> , T. Pearce, The Open University, Milton Keynes, England, United Kingdom	327
<i>Engineering education in India: diffusion of orientation</i> , J. Gadit, MS University of Baroda, Baroda, India	331
<i>Using a quality template to assess careers education provision within the engineering curriculum</i> , I.G. Cross, J.H. Reynolds & M.A. Lintern, University of Portsmouth, Portsmouth, England, United Kingdom	333
<i>CIM systems: a new trend in control engineering education</i> , M. Voicu, D. Panescu, O. Pastravanu, St. Dumbrava, S. Ifrim & St. Resmerita, Technical University Gh. Asachi of Iasi, Iasi, Romania (Lead Paper)	337
<i>Challenged, ambitious, fascinated and inspired: a characteristic profile of elite, award-winning S-E-T students in the Exposcience Internationale</i> , K. Rochford, University of Cape Town, Cape Town, Republic of South Africa	342
<i>Articulation as a route for wider access to engineering higher education</i> , G.R. Burns, T. Westwood & C.U. Chisholm, Glasgow Caledonian University, Glasgow, Scotland, United Kingdom	346
<i>Effective technical vocational school teacher training in the engineering education program in Taiwan</i> , C-F. Chi, National Chunghua University of Education, Chunghua, Taiwan, Republic of China	349
