

Australian Structural Engineering Conference 2005

Stewart, Mark G; Dockrill, Brad

Abstract: The technical papers included in these proceedings cover a wide range of topics, from structural design and analysis, durability and deterioration to blast and fire. Contributing authors come from both practitioner and academic backgrounds, so there is sure to be a diversity of views on issues facing the structural engineering profession today.

Imprint: Sydney, N.S.W.; Engineers Australia; 2005.

Extent: 1316 p.

ISBN: 1877040371

Publication Type: Conference Paper

Subjects: Engineering; Engineering (Other branches); Civil engineering

Peer Reviewed: Yes
