

The 2011 International Conference on Civil Engineering, Architecture and Building Materials (CEABM 2011) will take place in Haikou, China, June 18-20, 2011. A key aspect of this conference is the strong mixture of academia and industry. This allows for the free exchange of ideas and challenges faced by these two key stakeholders and encourage future collaboration between members of these groups. This conference provides an excellent opportunity for you to update your understanding, whether you are an industry practitioner, engineering or graduate student, or academic researcher in this field.

After refereeing process, accepted papers will be published on international journal "**Advanced Materials Research**" and will be indexed in the major academic databases, including **EI Compindex, Thomson ISI (ISTP)**, and other indexing services. **Trans Tech Publications** will provide **online camera-ready paper submission system** to save time and decrease the publishing cycle. The full text is online available via platform **www.scientific.net**. **Selected excellent papers will be published on reputation SCI journals.**
