

Branching Out: The 6th Australasian Symposium on Conversation Analysis and Membership Categorisation Analysis

November 5th-7th 2008, The Ship Inn, South Bank, Brisbane

The 6th Australasian Symposium on Conversation Analysis and Membership Categorisation Analysis is being organised by Brisbane's TAG (Transcript Analysis Group) and supported by Griffith University, Queensland University of Technology and the University of Queensland. The two and a half day symposium is designed to build upon and enhance the emerging profile and scope of CA/MCA work being done within Australasia and to make and develop connections with those working in this field. To this end the title 'Branching Out' reflects both the emerging strength of Australasian CA/MCA work nationally and internationally as well as the unique collaborative interests that have potential for the strength of the approach into the future.
